INDUSTRY 4.0 KEY SOLUTIONS... EVOLVING TOGETHER

metaphorce.forteinnovation.mx

Mexico

Is one of the most popular destinations for foreign direct investment (FDI) in Latin America. Its global recognition as a main investment destination is reinforced by its geographical position, being the gateway between Latin America and the main economies of the United States and Canada, the former being the main destination for goods from Mexico.

Guanajuato: The convergence Hub

The Bajío-Occidente region continues to be the region with the greatest economic dynamism and in what corresponds to the absorption of industrial land, and Guanajuato is positioned as a profitable market by registering sustained investment since 2020.

Our Goal

Guide, manage and design strategies that allow the digital growth of companies' talent, mainly from industrial and manufacturing sectors of the region such as aeronautics, aerospace, automotive and electronics, supported by the development of industry 4.0 and the challenges it represents.

How to achieve it?

Identifying and improving opportunities for social and economic growth, developing best management practices and identification of Mexican talent with its powerful technical and professional skills to respond to the constantly evolving industrial and digital challenge.
